

The following table shows the scope of practice linked to the program studied. Each employer will define their own scope of practice and determine what qualifications are needed for their own roles, however as a guide:

• Diploma – would usually be employed as an ATA (EMT, ESO, non-registered emergency medical response provider)

### Abbreviation guide:

EMT – Emergency Medical Technician (A for Advanced level practice; B for Basic level practice)

ESO - Emergency Services Officer

ATA - Ambulance Transport Attendant

### Legend:

Theory = Taught in online theory

Assessed ✓= Assessed practically in face-to-face scenario during workshops

Assessed \*\* = students demonstrate competency by ruling out condition as part of an assessment for a different condition
